

Automatic Shut Off Coupling

Series 0703US

Chrome Plated Brass Construction

Durable material that resists water and chemical corrosion

Shut-Off Valve

Valve allows for quick disconnection while also cutting off water supply

Quick connect coupling with shut-off valve combines a water hose and any of our waterfed products to ensure a watertight fit. The bottom piece slides down and up to both connect and disconnect while shutting off the water supply.

Automatic Shut Off Coupling

0703US

This watertight coupling is used as part of the complete Vikan waterfed system. Connect a standard hose to any Vikan waterfed product equipped with a quick connector coupling, such as our handles, water guns, hand brushes, and deck scrubs.

Specifications:

Length: 2"

Width: 1.2"

Height: 5.25"

Material: Chrome Plated Brass

Unit Weight: 0.26 lbs.

Colors

When ordering, add the color digit to the base part number to denote color.

Fully updated product specifications are available at Vikan.com.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
