

51" Fiberglass Handle

Series 2936

Hanging Hole

Large hanging hole allows for easy storage while the shape lets water drain out quickly

Hygiene Sleeve

Long hygienic sleeve increases durability and makes the handle ergonomically friendly and easy-to-use

Fiberglass Handle

Fiberglass material is strong and durable

Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

Vikan's standard fiberglass handle can be used with all brooms, squeegees and scrapers. The handle with the attached item should reach to the chin of the user to prevent occupational back injuries.

51" Fiberglass Handle

2936

Vikan's long handle features a hygienic sleeve that increases durability. The full-color handle promotes color-coding programs. The handle is long enough to be comfortable to use for most employees.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
