

# 51" Ultra Hygiene Handle

Series 2960

## Easy Hanging Hole

Teardrop-shaped hole is contoured to allow moisture to quickly drain

## Sturdy Polypropylene

Made completely of durable and food-safe polypropylene

## Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

The handle's ergonomically designed grip has been optimized for comfort during use. Made from food-grade, chemically resistant polypropylene, the material ensures that it can be safely used in a variety of environments. The hygienic design minimizes the risk of cross-contamination and makes it easy to clean and maintain.

## 51" Ultra Hygiene Handle

2960

Designed for ease-of-use just as much as it was for cleanability, the Ultra Hygiene Handle is the pinnacle of handle design. Its strong material is molded into a wider grip for comfort, and every feature contributes to the handle's cleanability.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
