

Medium Hand Brush

Series 3587

Angled Block

Block is designed to be held by smaller and larger hands, thanks to its unique angled design

Hanging Hole

The specially shaped hanging hole allows water to drain out easily over the brush head, while the hole itself makes storage easy

Medium Bristles

Bristles are strong enough to scrub away tough messes in dry or wet cleaning applications and fine enough to handle fine particles

This multipurpose, fully color-coded hand brush is great for scrubbing tables and cutting boards. It is also designed for smaller hands, but can be easily used by those with larger hands thanks to the angled design. The bristles are ideal for cleaning medium and fine particles, and they can be used in both wet and dry applications.

Medium Hand Brush

3587

Fully color-coded hand brush can be used easily and ergonomically by those with small hands thanks to the unique block shape and size. The bristles are versatile and ideal for wet and dry applications.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
