

UST Long Handle Scrubbing Brush

Series 4196

Hanging Hole

The specially shaped hanging hole allows water to drain out easily over the brush head, while the hole itself makes storage easy

Ergonomic Handle

Handle makes the tool easy to apply pressure to efficiently without wasting effort

Bristle Security Units

Fully-molded bristles are laid out in a unique pattern to allow for greater efficiency when cleaning

Stiff Bristles

Perfect for scrubbing difficult dirt and for wet use with cleaning agents

This UST long handled hand brush with stiff bristles is effective when cleaning machines, buckets, containers, and tubs in high risk areas. The angled and circular arrangement of the Bristle Security Units enables efficient scrubbing, while the shallowness of the units themselves make cleaning the brush easy.

UST Long Handle Scrubbing Brush

4196

The UST Long Handle Scrubbing Brush has all the efficiency of a full-bristled brush without sacrificing cleanability and hygienic design. The stiff bristles will easily scrub away the toughest debris while the ergonomically friendly handle makes the work easier.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
