

# Dish Brush w/ Scraper

Series 4237

### Hanging Hole

The specially shaped hanging hole allows water to drain out easily over the brush head, while the hole itself makes storage a breeze

### Ergonomic Handle

Handle makes the tool easy to apply pressure to efficiently without wasting effort

### Medium Bristles

Bristles are strong enough to scrub away tough messes in dry or wet cleaning applications and small enough to handle fine particles

### Angled Bristles

Bristles are angled to make washing the tight corners of glasses and bowls easier

The head of this fully color-coded dish brush has angled bristles that reach perfectly into corners. It has a small scraper at the tip to loosen stubborn dirt. The raised angle of the grip promotes quick and effective cleaning because of the operator's hand and arm are in the ergonomically correct position.

## Dish Brush w/ Scraper

4237

The Dish Brush w/ Scraper cleans cups, bowls, and even machinery with ease. The scraper on the brush gets rid of tough messes, while the medium bristles make short work of cleaning both wet and dry surfaces.

### Specifications:

Length: 10.8"

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
