

Tube Brush for Flexible Handle

Series 5391

Specialized Thread

Fits Vikan flexible handles
5350 and 5352

Wide Diameter

Thoroughly clean common
sizes of tubes and valves

Optimal Bristle Coverage

Bristles densely cover the
surface being cleaned, but also
flex with the shape of the pipe

This full-bristle tube brush cleans many commonly-sized tubes and valves. The specialized thread on this brush fits the Vikan long flexible handles 5350 and 5352.

Tube Brush for Flexible Handle

5391

Tube brushes for flexible handles are a great solution for cleaning machinery and equipment with narrow valves, pipes and other parts. The bristles are dense and firm enough to clean thoroughly, but flexible enough to move with the shape of the equipment being cleaned.

Specifications:

Length: 7.75"
 Width: 3.5"
 Height: 3.5"
 Bristle Stiffness: Medium
 FDA Compliant Raw Material: Yes

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
