

Ergonomic Shovel - Large Sieve

Series 5604

Easy-Grip Handle

Wide handle with opening is ideal both for worker comfort and allows hanging for storage

Reinforced Ergonomic Handle

Handle contains an aluminum tube to increase durability, and is stepped in two places to make it easy to use

Wide Sieve Blade

Wide blade base makes the process of sifting and draining more efficient

The ergonomic polypropylene sieve shovel makes sifting and draining less of a chore. This shovel features injection-molded polypropylene can withstand temperatures from -22° F/-30° C to 176° F/80° C. The holes enable liquid to drain quickly from food products. The sieve shovel is great for many different industries.

Ergonomic Shovel - Large Sieve

5604

□
5

The Large Sieve Ergonomic Shovel can sift and drain large amounts of material efficiently. The shovel can be used in many different applications across many different industries. The long holes allow moisture and small particles to quickly drain from the shovel.

- FDA-Compliant Raw Material: Yes
- Material: Polypropylene
- Unit Weight: 3.44 lbs.

Colors

When ordering, add the color digit to the base part number to denote color.

Fully updated product specifications are available at Vikan.com.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
