

Ergonomic Shovel- Extended Handle

Series 5612

Extended Length Handle

Extra-long handle reaches into deep containers and the stepped design helps prevent back injuries

Reinforced Handle

Reinforced with an inner aluminum tube to provide enhanced durability without sacrificing the lightweight design

Durable Construction

Strengthened neck joint means the shovel can withstand heavy-duty use

The handle is reinforced with an inner aluminum tube. It is stepped in two places, which helps to prevent back injuries. The neck joint has been strengthened in order to withstand heavy duty use. The added length of this shovel makes it ideal for moving product between containers or shoveling produce from tubs.

Ergonomic Shovel- Extended Handle

5612

□
5

This long-handled shovel is designed for use in direct contact with food. The long and small blade combination makes it suitable for shoveling smaller volumes and reaching into deep containers.

Specifications:

Length: 63.8"

Width: 10.75"

Height: 7.5"

FDA-Compliant Raw Material: Yes

Material: Polypropylene/Aluminum

Unit Weight: 4.03 lbs.

Colors

When ordering, add the color digit to the base part number to denote color.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
