

16' Fiberglass Extension Handle w/ Drain

Series 6269N

REMCO

This fiberglass extension pole extends past 16 feet and drains directly through the handle. The pole is designed to work in conjunction with our condensation collection squeegees to eliminate dripping water that could contaminate food product or cause corrosion on costly equipment. The ceiling squeegee system provides a more sophisticated and effective option than rags and sponges.

16' Fiberglass Extension Handle w/ Drain

6269N

Available in white only

Condensation squeegees are Remco's unique solution to a common food industry problem. Attach this handle to reach tall ductwork to remove condensation before it falls into food or onto expensive machinery. This handle easily extends to up to 16 feet.

Specifications:

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
