

32 oz. Metal Detectable Hand Scoop

Series 6400MD

REMCO

Color-coded plastic scoops support food safety material handling, cleaning and sanitation programs that are aimed at preventing cross-contamination. Metal detectable color-coded tools provide the ultimate step in quality assurance and safety for the food processing industry.

32 oz. Metal Detectable Hand Scoop

6400MD

Rugged hand scoops are useful for moving bulk materials and fit into professional cross-contamination containment, food safety and HACCP programs. The material used to produce these scoops can be identified by standard metal detection equipment.

Specifications:

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
