

Remco 28" Curved Disposable Hazmat Squeegee

Series 6530

REMCO

Hygienic Euro Thread

Thread is specially designed with shallow, hygienic grooves that prevent walk-off

Tough Plastic Material

Durable polyethylene can clean even the harshest chemical spills

Remco's hazmat squeegees provide an economical solution to chemical clean-up problems. These squeegees are made of chemically resistant polyethylene, and they're tough and cost-effective. The design features a high-density polyethylene block with a low-density polyethylene blade. This curved-blade model will push large volumes of liquid and contain spill areas more effectively than the smaller, straight-edged models. A hazmat squeegee is an essential piece for any spill kit.

Remco 28" Curved Disposable Hazmat Squeegee

6530

Available in white only

The curved blade of this hazmat squeegee contains chemicals while clean, helping to contain the hazard. This blade is ideal for large-volume spills and is an essential piece for any spill kit in facilities where harsh chemicals are used.

Specifications:

Length: 27.5"

Width: 3.75"

Height: 5.9"

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
