

# 128 oz. Mega Dipper

Series 6552

**REMCO**

## One-Piece Construction

Polypropylene scoop has no seams or cracks, increasing durability and hygiene

## Hygienic Euro Thread

Shallow threads increase hygiene and cleanability while preventing walk-off

## Simple Measurements

Measurements in liters, UK gallons, and US gallons are easy to see and follow

This color-coded dipper version of the mega scoop is great for handling bulk materials. It can be used to scoop product out for quality control or to simply move product. Its solid construction makes it extremely durable. It combines with any of our handles due to its hygienic Euro thread, which prevents walk-off and is easier to clean.

## 128 oz. Mega Dipper

6552

Durable polypropylene construction makes this tool ideal for dipping heavy material while the Euro thread prevents walk-off. Ideal for material handling when reach is needed, the Mega Dipper can withstand years of use.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
