

Remco 8" Disposable Hazmat Squeegee

Series 6608

REMCO

Remco's hazmat squeegees provide an economical solution to chemical clean-up problems. These squeegees are made of chemically resistant polyethylene, and they're tough and cost-effective. The design features a high-density polyethylene block with a low-density polyethylene blade. A hazmat squeegee is an essential piece for any spill kit.

Remco 8" Disposable Hazmat Squeegee

6608

Available in white only

Remco's hazmat squeegees provide a cost-efficient solution to hazardous chemical spills. The 8" polyethylene blade is chemical resistant and ideal for cleaning small spills. The squeegee is disposable so the blade doesn't have to be cleaned after touching harsh chemicals.

Specifications:

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
