

# Pan Safety Shovel w/ 10" Blade- Handle Cap

Series 6895SS

**REMCO**

## Safety Cap

Cap allows this to be used as a large scoop to move large amounts of bulk material

## Durable and Wide Blade

Chemical resistant blade works well with a variety of material, and the width allows for efficiency

Remco's polypropylene safety shovel is tough and lightweight. It is a workhorse for moving bulk materials in industrial settings. This unit has a short handle cap that is intended for one-handed scooping.

## Pan Safety Shovel w/ 10" Blade- Handle Cap

6895SS

Available in green and black only

The Pan Safety Shovel is wide enough to efficiently move large amounts of bulk material easily. The chemical-resistant and non-sparking blade is ideal for use in sensitive environments.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
