

Angle Dump Tub Lid

Series 6902

REMCO

Durable

High-density polyethylene construction makes these tub lids a durable solution

Total-Color

Five total-color options allow for these to easily integrate into a color coding system, along with the tubs

This lid is designed for use with Remco's color-coded angled dump tubs. They are manufactured from high-density polyethylene, and are suitable for transporting, freezing, and storing. This model has an angled edge that fits securely on angled tubs.

Angle Dump Tub Lid

6902

These lids meet all USDA specifications and are commonly used for meat, seafood, poultry, commercial fishing, confectionery, bakery, and grain applications. They turn our angle tubs into a secure storage solution and keep airborne contaminants out of products.

Specifications:

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
