

# Metal Detectable One-Piece Shovel

Series 6982MD

**REMCO**

Color-coded plastic scoop shovels support food safety material handling, cleaning and sanitation programs that are aimed at preventing cross-contamination. Metal detectable color-coded tools provide the ultimate step in quality assurance and safety for the food processing industry.

## Metal Detectable One-Piece Shovel

6982MD

The one-piece hygienic shovel is a workhorse for moving bulk materials and an integral part of any professional cross-contamination containment, food safety or HACCP program. The material used to produce these shovels can be identified by standard metal detection equipment.

### Specifications:

Overall Length: 42"

Blade Width: 14"

Blade Height: 17"

Weight: 5.2 lbs

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
