

Flexible Paddle Scraper

Series 7013

Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

Flexible Paddle

Flexible construction functions as a spatula, making scraping container surfaces easy

Intended for scraping substances from the sides of containers, the flexible paddle scraper is a great tool for prepping prior to the cleaning procedure. The Euro-thread connection allows for pairing with any length or type of Vikan handle, so it can be used on everything from large vats to simple mixing bowls.

Flexible Paddle Scraper

7013

This scraping blade is used to remove remaining food stuff from containers prior to the cleaning procedure. It is flexible and is used as a spatula for large or medium sized containers. Requires a Euro-thread handle.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
