

6" Mini Handle

Series 2934

Easy Hanging Hole

Teardrop-shaped hole is contoured to allow moisture to quickly drain

Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

Short Handle

Perfect for turning full-size tool heads into easy-to-use hand tools for benchtop applications

The mini-handle is commonly used with scraping blades for large flat surface areas like tables, tube brushes for round entry points of equipment, and paddles for scraping ingredients from large bowls and containers.

6" Mini Handle

2934

The Mini Handle is an ideal solution for use with benchtop tools like scraping blades and squeegees, as well as tube brushes and paddles. The handle is fully-molded one-piece polypropylene, which increases durability and cleanability.

Specifications:

Length: 6.25"
 Width: 1.25"
 Height: 1.25"
 FDA-Compliant Raw Material: Yes
 Material: Polypropylene
 Unit Weight: 0.11 lbs.

Colors

When ordering, add the color digit to the base part number to denote color.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
