

51" Aluminum Light-Duty Handle

Series 2945

Hanging Hole

Large hanging hole allows for easy storage while the shape lets water drain out quickly

Durable Handle

Basic aluminum handle is durable and suitable for most applications in the food processing industry

This standard aluminum handle can be used with all brooms, squeegees, and scrapers. The handle with the attached item should reach to the chin of the user to prevent occupational back injuries.

51" Aluminum Light-Duty Handle

2945

Available in white only

This aluminum and polypropylene handle is long enough to be ergonomically friendly and is made of FDA-compliant materials. The handle is suitable for light-duty applications and can be stored using the convenient hanging hole.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
