

63"- 114" Waterfed Telescopic Handle w/ Barbed Fitting

Series 29735

Hose Connection

Barbed fitting connects to a standard hose with an unfinished end piece

Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

Hollow Polypropylene

Strong and FDA-approved material allows water to flow through the handle

Easy Extension

Its full extension height allows you to reach most ductwork and high areas like walls, ceilings or tanks

This waterfed extendable handle allows water to travel through it for use in conjunction with a condensation squeegee or waterfed brush system. This handle comes equipped with a barbed fitting for connecting to a hose with an unfinished end.

63" - 114" Waterfed Telescopic Handle w/ Barbed Fitting

29735

Available in white only

The hollow design of the Waterfed Telescopic Handle allows water to flow through it—either from a hose into one of our waterfed cleaning brushes, or from one of our condensation squeegees. Handle easily extends to reach up to 114 inches.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
