

# 62"- 113" Telescopic Aluminum Handle

Series 2975

## Twist Lock

Tightens the extended aluminum pole to hold firmly in place

## Extendable Length

Collapsed length of 64" extends to 115" for cleaning unreachable areas

This FDA-compliant telescopic handle is made from polypropylene and aluminum, making it a durable and safe option to use in hygiene sensitive areas. The handle extends to a maximum length of 115" and is available in six different colors, which makes this handle uniquely suited for color-coding and HACCP programs.

## 62"- 113" Telescopic Aluminum Handle

2975

This extendable handle is often used with the pad holder and deck scrubs for reaching high walls and tanks. Also used with CIP brushes for cleaning on top of overhead pipes.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
