

62" Waterfed Aluminum Handle w/ Quick Disconnect Fitting

Series 29915

Hose Connection

Barbed fitting connects to a standard hose with an unfinished end piece

Easy Grip

Long poly grip increases durability and makes the handle ergonomically friendly

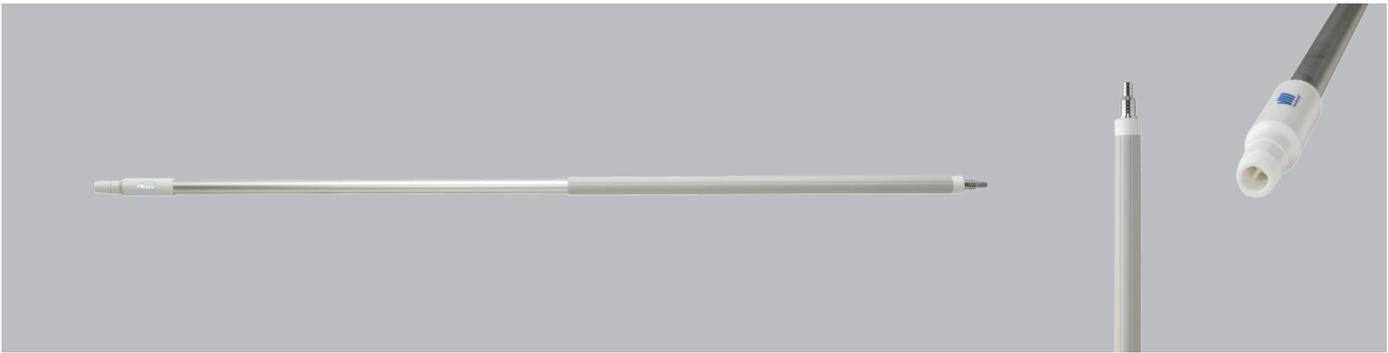

Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

Hollow Polypropylene

Strong and FDA-approved material allows water to flow through the handle

This waterfed handle allows water to travel through it for use in conjunction with a condensation squeegee or waterfed brush system. This handle comes equipped with a barbed fitting for connecting to a hose with an unfinished end.

62" Waterfed Aluminum Handle w/ Barbed Fitting

29915

Available in white only

The hollow design of the Waterfed Aluminum Handle allows water to flow through it—either from a hose into one of our waterfed cleaning brushes, or from one of our condensation squeegees.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
