

# Small Utility Brush

Series 3088

## Hanging Hole

The specially shaped hanging hole allows water to drain out easily over the brush head, while the hole itself makes storage easy

## Angled Handle

Handle sits at an angle to provide ergonomic support and make scrubbing easier

## Medium Bristles

Bristles are strong enough to scrub away tough messes in dry or wet cleaning applications and small enough to handle fine particles

This small, lightweight brush has a broad head and an ergonomically angled handle. This design raises the user's hand from the cleaning surface reducing the risk of injury. Suitable for cleaning small surface areas, tables, pots, cutting boards, and more.

## Small Utility Brush

3088

A workhorse of the food industry, the small utility brush cleans a variety of surfaces. From work benches to sinks, the small utility brush is an ideal cleaning tool thanks to its size, ergonomically friendly shape, and versatile bristles.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
