

UST Short Handle Scrubbing Brush

Series 4179

Hanging Hole

The specially shaped hanging hole allows water to drain out easily over the brush head, while the hole itself makes storage easy

Bristle Security Units

Fully-molded bristles are laid out in a unique pattern to allow for greater efficiency when cleaning

Ergonomic Handle

Handle makes the tool easy to apply pressure to efficiently without wasting effort

Stiff Bristles

Perfect for scrubbing difficult dirt and for wet use with cleaning agents

This UST short handled hand brush with angled Bristle Security Units is effective when cleaning conveyor belts, production lines, machinery, and food preparation surfaces in high risk areas. The angled and circular arrangement of the Bristle Security Units ensures efficient cleaning.

UST Short Handle Scrubbing Brush

4179

Stiff bristles and a unique bristle pattern make the UST Short Handle Scrubbing Brush an efficient and effective choice for cleaning tough messes in both wet and dry environments.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
