

Blade Cleaning Brush w/ Hand Guard

Series 4184

This brush is perfect for cleaning tools with exposed blades that could cause injury to the user. The narrow single row of bristles fits perfectly between the blades of any bowl cutter. The hand guard protects the user's hand from being cut during the cleaning process. This brush allows the user to clean the machine without disassembly.

Blade Cleaning Brush w/ Hand Guard

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
