

Narrow Brush

Series 4195

Finger Support

Prevents the brush from slipping out of the user's hand

Ergonomic Handle

Rounded underside that rolls in the user's palm when sweeping from side to side

Stiff and Angled Bristles

Bristles are effective at reaching into crevices

Hygienic Design

Externally angled and rounded surfaces improve brush cleanability

This is a narrow cleaning brush with a smooth, ergonomically designed handle. It is also used to clean fish.

Narrow Brush

4195

Ideal for cleaning stubborn food soils in narrow areas such as around conveyor belts, rubber seals of fridges, baker's racks and other tight spaces.

 Unit Weight: 0.21 lbs.

Colors

When ordering, add the color digit to the base part number to denote color.

Fully updated product specifications are available at Vikan.com.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
