

UST Soft Bench Brush

Series 4581

Hanging Hole

The specially shaped hanging hole allows water to drain out easily over the brush head, while the hole itself makes storage easy

Bristle Security Units

Fully-molded bristles are laid out in a unique pattern to allow for greater efficiency when cleaning

Ergonomic Handle

Handle makes the tool easy to apply pressure to efficiently without wasting effort

Soft Bristles

Soft bristles efficiently sweep fine particles such as flour and other dry powders

This UST bench brush has soft bristles with Ultra Bristle Security and is ideal for sweeping fine dry particles from conveyor belts, food preparation surfaces, tables, and equipment in high risk areas. The placement of the Bristle Security Units enables efficient sweeping of fine dry particles.

UST Soft Bench Brush

4581

The UST-exclusive bristle pattern is easy to clean and hygienically designed. Ideal for conditions where flour and other fine ingredients are used, the UST Soft Bench Brush efficiently sweeps away powders.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
