

Ø0.9" Tube Brush

Series 5376

Ergonomic Handle

Smooth, comfortable grip helps prevent hand fatigue

Optimal Bristle Coverage

Bristles densely cover the surface being cleaned, but also flex with the shape of the pipe

Helically Wound Shaft

Stainless steel rod is chemically resistant and provides strength

This tube brush with a 0.9 inch diameter is great for cleaning pipes and narrow spaces between machinery. Made from FDA-compliant materials, this piece is fit for inclusion into any color-coding program.

Ø0.9" Tube Brush

5376

This tube brush has a narrow bristle diameter. It is used to clean pipes, tab outlets, and narrow spaces between machine parts. The bristles are attached to a helically wound stainless steel shaft which makes it chemical resistant and strong.

Specifications:

Length: 19.9"
 Width: 0.9"
 FDA Compliant Raw Material: Yes
 Block Material: Polypropylene
 Bristle Material: Polyester
 Other Material: Stainless Steel
 Unit Weight: 0.15 lbs.

Colors

When ordering, add the color digit to the base part number to denote color.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
