

Cleaning Pad Holder

Series 5500

Swivel Neck

The neck of this tool swivels to allow the user flexibility in cleaning any area

Use with Euro-thread Handle

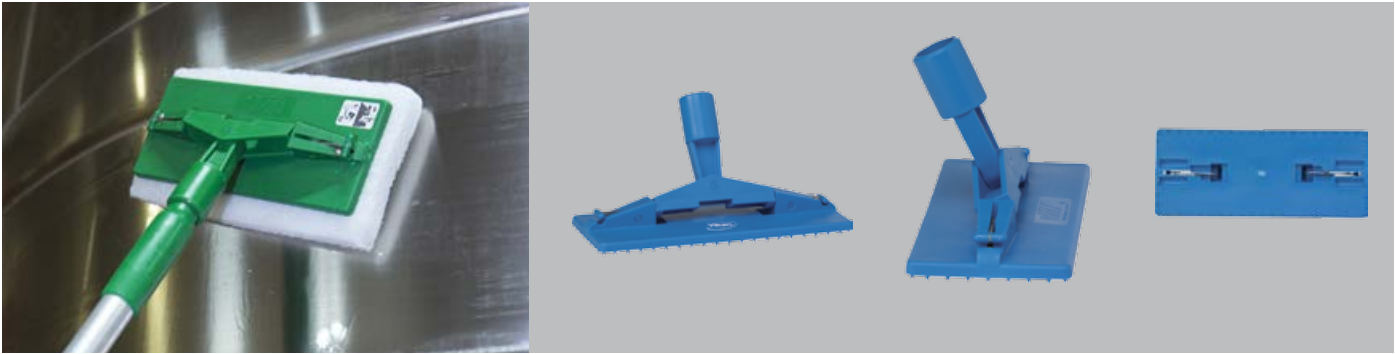

Attaches to any length Euro-thread handle to fit the application

Grips and Clips

Stainless steel clips attach the pad to the tool and grips keep pad firmly in place

This is a pad holder that uses stainless steel clips to affix scouring pads of varying roughness. This pad holder can be attached to any Remco or Vikan euro-thread handle to provide extended reach where needed.

Cleaning Pad Holder

5500

The pad holder is great for scrubbing stubborn dirt on walls, tanks, and floors and also cleaning underneath equipment. The clip mechanism is stainless steel, which prevents the pad from falling off once heavy with water.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
