

# Lobby Dustpan w/ Broom

Series 6250

**Remco**

Made especially for food processing facilities, this dustpan set contains a dustpan and an upright broom. It has no hard angles that could trap food residue or bacteria, and it can be easily disassembled and reassembled for regular washing and sanitizing. The large, 7" by 14" bin allows for big and small cleanup jobs while the tall, 37" handle prevents back pain that stems from leaning over shorter dustpans.

**Lobby Dustpan w/ Broom**  
6250

This lobby dustpan and broom set was created with food processors and food service workers in mind. Made with FDA-approved materials, this product was created to meet the needs of customers. This product is durable and made of the highest-quality materials here in the USA.

**The Color-Coding System**

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
