

# Hand Scoop

Series 6500

**REMCO**

Color-coded plastic scoops are perfect for supporting food safety material handling, cleaning and sanitation programs that are aimed at preventing cross-contamination.

## Hand Scoop

6500

Rugged hand scoops are useful for moving bulk materials and fit into professional cross-contamination containment, food safety and HACCP programs. These scoops are commonly used in baking, meat, poultry, seafood and milling applications.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
