

# Safety Shovel w/ 10" Blade- Extended Handle

Series 6896BKSS

**REMCO**

## **D-Grip Handle**

Wide handle allows for a good grip so workers can easily use it for longer

## **Bonded Joint**

Joint is bonded to provide durability and keep shovel extended to its full length

## **Durable and Wide Blade**

Chemical resistant blade works well with a variety of material, and the width allows for efficiency

Remco's polypropylene safety shovel is tough and lightweight. It is a workhorse for moving bulk materials in industrial settings. This unit features an extended length handle and standard blade. The handle is bonded to the blade to keep the shovel extended.

## Safety Shovel w/ 10" Blade- Extended Handle

6896BKSS

Available in black only

The extended-length handle is attached to a 10" blade to create our safety shovel. The ergonomic design and lightweight polypropylene makes it easy for workers to use this heavy-duty shovel.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
