

8" Metal Detectable Bench Scraper

Series 6960MD

REMCO

Color-coded plastic scrapers support food safety material handling, cleaning and sanitation programs that are aimed at preventing cross-contamination. Metal detectable color-coded tools provide the ultimate step in quality assurance and safety for the food processing industry.

8" Metal Detectable Bench Scraper

6960MD

This metal detectable bench scraper is an excellent solution for bench top scraping needs. The semi-ferrous additive in this product allows for use in conjunction with a metal detectable system. Metal detectable plastic is a lightweight and less costly alternative to stainless steel.

Specifications:

Length: 0.2"

Width: 8.3"

Height: 5.2"

FDA Compliant Raw Materials: Yes

Material: Polypropylene with Semi-ferrous additive

Unit Weight: 0.39 lbs.

Deflection / Softening Temps: 183°F / 266°F

Colors

When ordering, add the color digit to the base part number to denote color.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
