

# One-Piece Shovel

Series 6982

**REMCO**

## Lightweight

Promotes comfort for users performing repetitive tasks.

## Shorter Length

Ideal for food processing applications involving raised surfaces and containers.

## One-Piece Construction

Eliminates seams and crevices where bacteria can hide.

## Durable Plastic Blade

Bears a considerable load, but will not damage expensive equipment.

Color-coded plastic scoop shovels are perfect for supporting food safety material handling, cleaning and sanitation programs that are aimed at preventing cross-contamination.

## One-Piece Shovel

6982

The one-piece hygienic shovel is a workhorse for moving bulk materials and an integral part of any professional cross-contamination containment, food safety or HACCP program. This shovel is commonly used in baking, meat, poultry, seafood and milling applications.

### Specifications:

Overall Length: 42"

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
