

Stiff Paddle Scraper

Series 7011

Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

Stiff Paddle

Stiff construction makes this paddle perfect for scraping stubborn substances that require significant pressure to remove

Intended for scraping substances from the sides of containers, the stiff paddle scraper is a great tool for prepping prior to the cleaning procedure. The Euro-thread connection allows for pairing with any length or type of Vikan handle, so it can be used on everything from deep containers to simple mixing bowls.

Stiff Paddle Scraper

7011

This scraping blade is used to remove remaining food stuff from containers prior to the cleaning procedure. Its rigid construction is useful when firm pressure needs to be applied into deep containers. Requires a Euro-thread handle.

Specifications:

Length: 8.75"
 Width: 4.3"
 Thickness: 1"
 FDA-Compliant Raw Material: Yes

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
