

Waterfed Hand Brush w/ Quick Disconnect

Series 7056Q

Quick Connect

Quickly and easily attach or detach the hand brush from the water-tight coupling to store or switch tools

Waterflow Channels

Fed through the center of the brush and out through holes between the bristles, a steady flow of water aides in the cleaning process

Stiff Bristles

Strong and durable bristles, coupled with water, provide an enhanced cleaning experience

Designed to clean boots, this brush is durable, effective, and convenient. Quickly connect or disconnect the brush from the water source via the quick connect feature. The Vikan waterfed system puts water right at hand for safe, thorough cleaning.

Waterfed Hand Brush w/ Quick Disconnect

7056Q

■ □
3 5

This waterfed hand brush is used for boot washing. The water runs through the center of the brush and out through holes in between the bristles. The robust quick connect coupling allows for easy connection of hose using the Vikan coupling system.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
