Skive June 2022

## Vikan products in relation to REACH

We are following the EU regulation 1907/2006 and subsequent amendments regarding REACH (Registration Evaluation Authorisation and restriction of Chemicals).

This Regulation ensures a high level of protection of human health and the environment.

The candidate list from REACH for products that as such constitute a risk for human health and the environment, SVHC (Substances of Very High Concern) is continuously updated and counts 224 substances with the latest update 10<sup>th</sup> June 2022.

See the following links for further information:

<http://echa.europa.eu/candidate-list-table>

Lead (Pb) CAS-no.: 7439-92-1 was added to the updated REACH candidate list on SVHC of 27<sup>th</sup> June 2018. Lead (Pb) is present in Vikan products containing brass or chromium plated brass.

If Vikan products contain SVHC substances in an amount above 0.1 % w/w the details regarding substance and SCIP notification number will be specified on the product data sheet on [www.vikan.com](http://www.vikan.com).

Yours sincerely  
VIKAN A/S
