

Bottle Brush

Series 5381-90-

Manufactured with no joint between the handle and brush head, the brush removes a common repository of contaminants. When cleaning, it's the brush bristle tips that do most of the cleaning. The brush head features extra-stiff bristles at the front, enabling you to clean more quickly and effectively.

Bottle Brush

5381-90-

The bottle brush is intended to clean bottles, drains, and other curved surfaces. The one-piece construction of handle and head is made from FDA compliant polypropylene. Extra-stiff polyester bristles at the front of the brush head are effective at removing stubborn debris from surfaces.

Specifications:

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
